

ENVIRONNEMENTAL POLICY

Mirabel Site

Naya Waters has the obligation to insure sustainable management of the natural resource. This is essential for our brand and image development. That is why, we commit to our local environment.

NAYA WATERS, FOR ITS MIRABEL SITE, COMMIT TO:

- G**uarantee water resource sustainability and purity to ensure the quality of our products and consumer safety
- R**espect Municipal, Provincial and Federal Regulations
- A**pply continuous improvement in its Environmental Management System
- P**rotect and improve the natural heritage of the site
- P**revent pollution and reduce greenhouse gas emissions
- E**xercise its social responsibility locally

IN ORDER TO MEET ITS COMMITMENTS, NAYA WATERS IMPLEMENTED THE FOLLOWING ACTIONS:

-  Maintain and increase knowledge of water resource hydrogeology and also of the human and natural environment of the site. Protect the water resource and never pump more than the resource natural capacity
-  Reduce its waste, reuse and recycle all recyclable materials.
-  Follow the evolution of Municipal, Provincial and Federal Regulations with regards to Environment.
-  Establish and communicate the culture of the company with regard to the environment.
-  Evaluate the environmental aspects, the challenges of the company as well as the associated risks and opportunities. Control and evaluate periodically the performance of its environmental objectives
-  Develop long-lasting relationships with local authorities and contribute to local development
